

Thumb GPS Tracker

A close-up photograph of a person's hand holding a small, black, rectangular GPS tracker. The device is held between the thumb and index finger, demonstrating its compact size. The text 'Tiny, but Powerful' is printed in white on the front of the device. A large, faint watermark 'www.thumbtrackers.com' is visible diagonally across the image.

Tiny, but Powerful

MYT-580

- Panic button built-in, perfect security device for ladies, seniors and kids
- Support indoor tracking with LBS or WiFi position technique
- With silicone belt holder to hide the tracker on the belt
- Custom design silicone case is welcome
- WiFi version is an option to be selected

WiFi Option

WiFi Location

The tracker will scan the nearby WiFi router signal and get the address from the Google database.

This tracking mode works even indoor and accuracy is around 10-100 meters.

WiFi Fence

User can setup specific WiFi hotspot coverage as a fence, alert will be triggered when device enter or exit the fence.

WiFi fence comparably smaller coverage, but much better accuracy and stable than the regular geo-fence.

for Lady

Put into the purse, press the panic button to let the family know your location immediately in emergency case

for Senior

it is perfect security item for senior with belt holder

for Kids
